Pitch Deck v1.4

"Utility Over Everything".

*"Let creators, create
and developers, develop".*

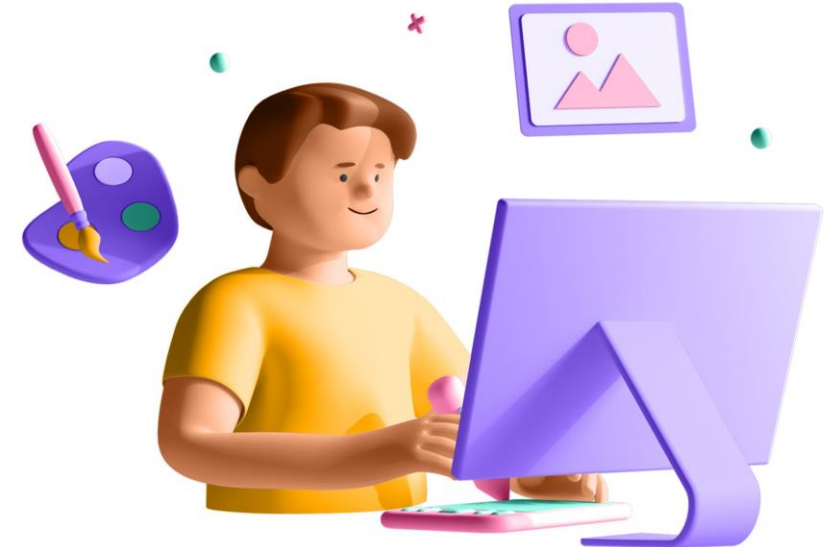

Automated & Decentralized Web3 Infrastructure for Creators

Friendly Log in & Decentralized Administration.

- **Log in with:** Email & Password, Google, X (Twitter)...

- **Or decentralized wallet:** Metamask, Wallet Connect, Binance Smart Wallet, Coinbase Wallet, Ledger or Trezor.

Interoperability.

- **10 available blockchains to operate:** Ethereum, Polygon, Binance Smart Chain, Avalanche, Fantom, Arbitrum, Optimism, Cronos, Klaytn & Harmony.

Operate on the blockchain directly from FIAT.

Thanks to our third party partners (Transak & Switchere) we are able to offer services as:

- Pay for the Marketland services.
- Recharge of the decentralized wallet from FIAT
- Purchase directly from FIAT methods on the blockchain thanks to the “checkout” integrated process that allow the payment on FIAT and execute the transaction on the blockchain making the money conversión and the interaction with the Smart contract on the blockchain.

Smart Contract Standards

- The standards we set for the creation of smart contracts are ERC 721 and ERC 721A, as well as ERC 4337 for portfolio creation as a service. Other standards such as ERC 20, ERC 1155, ERC 3643, ERC 4337 will be further explored and implemented after the launch.

General Info

Features

Resume

General Info

Smart contract name, symbol, etc.

Smart Contract Name *

Purely presentational, no special characters, max 50, start with a letter

Token Symbol *

Purely presentational, no spaces, max 10 characters

Price per NFT in ETH *

Mint price during public sale

Max NFTs Per Transaction

Maximum number of NFTs someone can mint in one go. Helps prevent botting and give everyone a fair chance to mint.

Overall Collection Size *

Maximum number of NFTs that can be ever minted in this collection

First X Free Per Person

Maximum number of NFTs someone can mint for free. Subject to Max NFTs Per Person and Max NFTs Per Transaction limits.

Max NFTs Per Person

Total number of NFTs someone can mint during public sale
